From this class, I studied C#, LINQ languages and knew how to create a winform app. This project was done for managing an mobile phone store.
September 2016 - January 2017	Website Reporting and Debating for Students and Lecturers

Team size: four

Language: Java, SQL, HTML, CSS

I did this project with my team in third year when taked Web Progammig class. From this class, I studied JAVA, SQL,... languages, some markup langues such as HTML, CSS,.. and knew how to create a basic web. This project was done for students and lecturers, who would use this for reporting and debating online.

October 2017 - Present

Website Sharing Content

Team size: 2

Language: C#, SQL, HTML, CSS

This is a big project that I'm doing in the last 2 semesters for the final year at university. This website give a solution for 2 types of people, one who wants to provide contents to get money and one who pays money for those contents.
